## Temporary News Sheet

### November 2006

*It's C.D. Jim,  
But not as we  
know it!*

## Editorial

Problems with the 'new' print-head recently installed in the club's printer halted the production of October's CD. I had 'just' managed to print enough copies for the members present at the October Club Meeting but unfortunately absent members will have to wait for their copy until our machine is back in production. In the meantime we're all greatly indebted to XXXXX XXXXX for the printing of this temporary news sheet.

## No Access To Thorney

Defense Estates are now operating an 'Individual printed pass' system for CADMAC members. Please ensure that your personal, phone and vehicle details are updated with Tony Chant's data-base. Otherwise you may find your access to Thorney Island is denied.

If you take any guests to Thorney they should be passengers in your own vehicle only.

## Annual General Meeting

The CADMAC AGM and Buffet will take place on

next month's Club meeting night - Thurs 8th December. This is your main opportunity to raise questions and elect the committee you deserve.

## Cups Shields Trophies

Will current holders of any of the CADMAC awards kindly return them to any member of the committee by YESTERDAY please!

The trophies are urgently needed for engraving prior to our AGM next month.

## Congratulations

Go to Paul Garner who successfully completed his BMFA 'A' examination on 2nd October at Porthole Farm. Paul was examined by Tony Chant.

## Indoor Flying

The next two meetings to be held at Bosham Village hall will be:

Friday 25th November 2005

Friday 30th December 2005

From 7.30 till late!

## Christmas Barbie

There will be a Christmas barbie and fly-in at Porthole farm from mid morning of Friday 30th December. See You There!

## Mousing About

**Aircraft Proving Grounds** [http://www.geistware.com/rcmodeling/model\\_calc.htm](http://www.geistware.com/rcmodeling/model_calc.htm)

is a great site and contains calculating machines for: Aircraft Balance, Basic Models, Unit Conversions, Centre of Gravity and Mean Aerodynamic Cord.

\*<http://www.commercemarketplace.com/home/CollectAir/index.html>. This is a very large and absorbing site for the scale modeller especially. Some excellent material on the P40. I think that you'll really like this one.
